

The Brain Gain

The best way to predict the future is to create it.

Glenna Jolliff graduated from North Daviess in 2006. She played high school volley ball and after enrolling at Vincennes University she continued playing the sport. At VU she studied Massage Therapy and graduated with an Associate's Degree. She then transferred to Oakland City University in order to continue her education in the field of health and also play her much loved sport, volley ball. In April, 2009, although busy with college but desiring to utilize her massage therapy education, she applied at Bowling Chiropractic and began working part time. Upon graduating from OCU in December of 2009, Glenna began working full time at the Bowling Chiropractic Clinic.

Glenna says, "I am a very home based type of person. I never wanted to move away from here." She credits her strong family values to her dad Phil, owner of Jolliff Diesel Service and her mom Sara, a Domestic Engineer. She also says, "My father and mother became self-employed for the purpose of spending time with my brother and me." She and her brother are very close and recently she sponsored a care package fundraiser for him while he was serving in Afghanistan. "I was so impressed with the people in our community. They might not even have been my massage patients but came in to donate to the care packages." Glenna states.

Glenna is a volunteer assistant coach for North Daviess JV and Varsity Volley Ball. She also finds time to help with the 4-H Goat Club every year. She feels she is lucky to be surrounded by a community of such good people. She claims, "The small town atmosphere is what I want, neighbors helping neighbors, good career opportunities and the ability to have good relationships with people."
